

The PT Edge Gateway, part of the Parking Telecom Parking Solution is a communication and control device used to integrate any device, be it one of our products or a 3-rd party product, into the system.

It can be used to integrate 3-rd party parking systems with the Parking Telecom Cloud, with all the benefits it brings.

It can also be used to connect APLR cameras, Variable Message Signs, part of the Parking Telecom Parking Guidance System, induction loops and detector, gate openers or other pieces of hardware.
